
Project Accomplishment – 2021

Client / Location: Power Foundation, Mbezi – Dar es Salaam, Tanzania

Service Provider: GBS TRUSTED COMPANY LIMITED

In 2021, **GBS Trusted Company Limited** successfully carried out a multi-disciplinary project at **Power Foundation, Mbezi Dar es Salaam**. The scope of the project included:

1. Installation of CCTV Cameras

- Design and installation of a modern surveillance system.
- Setup of monitoring and recording equipment to enhance the security of the premises.
- Testing and commissioning to ensure full operational functionality.

2. Air Conditioning (AC) Services and Maintenance

- Comprehensive inspection and servicing of air conditioning systems.
- Preventive maintenance to maximize efficiency and lifespan of the units.
- Repairs and replacement of faulty components to restore optimal cooling performance.

3. Plumbing Works

- Maintenance and improvement of the water supply and drainage systems.
- Leak detection and repair to prevent water losses.
- Ensuring compliance with safety and hygiene standards.

Outcome:

The project was completed successfully, resulting in:

- Improved **security** and monitoring through advanced CCTV systems.
- Enhanced **indoor comfort and energy efficiency** from well-serviced AC units.
- Reliable **water supply and drainage systems** due to professional plumbing work.

This accomplishment reflects GBS Trusted Company Limited's commitment to delivering **high-quality, professional, and sustainable technical solutions** to clients across Tanzania.
