

GBS TRUSTED COMPANY LIMITED

Project Accomplishment Report - 2022

Project Information

Project Title: Electrical Installation at Sky Bar Paje, Zanzibar

Project Location: Paje, Zanzibar

Project Duration: 2022

Executed by: GBS Trusted Company Limited

1. Project Overview

GBS Trusted Company Limited successfully completed the electrical installation project at Sky Bar Paje, Zanzibar, in 2022. The project focused on providing a modern, safe, and efficient electrical system to support the bar's operations and enhance the overall customer experience.

2. Scope of Work

- Wiring and Cabling: Full installation of electrical wiring throughout the premises, ensuring safety, reliability, and compliance with standards.
- Power Distribution: Setup of main and sub-distribution boards for efficient energy management.
- Lighting Installation: Installation of both functional and decorative lighting to enhance ambiance and energy efficiency.
- Safety Measures: Implementation of circuit breakers, grounding systems, and surge protection to prevent hazards.
- Testing & Commissioning: Comprehensive testing of all electrical systems to ensure proper functionality before handover.

3. Project Outcome

- Completed on schedule and within budget.
- Electrical systems are fully operational, safe, and compliant with regulatory standards.
- Sky Bar Paje now benefits from a modern electrical system supporting both daily operations and special events.

4. Acknowledgment

GBS Trusted Company Limited expresses gratitude to the Sky Bar Paje management team for their cooperation and trust throughout the project.
